PURSUANT TO 37 C.F.R. §1.133

Sir:

This is to summarize the record of the telephone interview of October 11, 2006 with the Examiner, Ms. Nora Maureen Rooney and the Supervisory Examiner Mr. Maher Haddad.

The restriction requirement of September 26, 2006 was discussed. The Examiner and her supervisory indicated that if Applicant is willing to state that the inventions of the eight groups are obvious in view of each other, then the eight groups can be examined together. Applicant pointed out that the present application is a divisional application and that the parent application has issued as a patent. Applicant states that if "A" in claim 5 is defined also as the invasion domain as recited in claim 3, will at least Groups I, II, III, IV, V, VI and VII be joined. No agreement was reached

Applicant's attorney pointed to the fact that the current practice of restriction requirement without consideration of various embodiments of an invention has made in very, very expensive for clients who are involved in biotechnology.

The courtesy of the Examiner, Ms. Rooney and the Supervisory Examiner, Mr. Haddad is deeply appreciated.
